Scan here for Portfolio

## Internship

**August 2023 - March 2024/ Futura Labs**

**Kozhikode - Kerala**

**MERN Stack Developer**

- I've invested significant time honing my skills in the MERN stack, which includes MongoDB for database management, Express.js for building scalable server-side applications, React.js for building user interfaces, and Node.js for handling server-side logic.
- I've worked on projects that encompass the entire stack, allowing me to gain a comprehensive understanding of how each component interacts

## Work Experience

**October 2022- July 2023/ UP2 TECH PVT. LTD**

**Kunnamkulam - Thrissur**

**Web Developer**

- Assist the senior developers and project managers by writing codes and contribute to the design and development of appication features.
- Develop and Design customized websites and live websites using Word press.
- Design websites using theme customization ,Html , CSS.
- Get a deeper look at the front end development.
- Experience with Plugin Integration.
- Avada Builders, Avada elements, WP forms, Contact forms.

---

# Projects

---

## Food delivery application

- Developed a full-stack web application for ordering food using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Implemented user authentication and authorization to ensure secure access for buyers and sellers.
- Designed and managed a scalable backend using Express.js and Node.js to handle server-side logic and API requests.
- Integrated MongoDB for efficient data storage and retrieval, handling user data, orders, and product listings.
- Built a responsive and dynamic user interface with React.js, ensuring a seamless experience across different devices.
- Implemented shopping cart functionality with real-time updates.
- Optimized application performance and responsiveness to enhance user experience.

## Netflix clone

- Build a website similar to Netflix.
- Frame work : React
- Languages : Javascript,HTML5,CSS
- IDE : VS code

## Flipkart Clone

- Build a website similar to Flipkart.
- Languages : Javascript,HTML5,CSS
- IDE : VS code

## Instagram Clone

- Build a website similar to Instagram.
- Languages : Javascript,HTML5,CSS
- IDE : VS code
